ABOUT US WHO WE ARE

We're not just another university. We're a type of university, proud to be different and not follow the crowd. While many institutions are becoming increasingly large and impersonal, we're committed to being more supportive and distinctly more personal. Our University was founded on a bold vision of technology a type of university that combines the best traditions with all the opportunities and advances of the modern world.

We love education, and we believe in its power to transform lives. Above all, we think this experience should be both exciting and unique to the individual.

Our role is to support you to the best of our abilities, provide you with the opportunities you deserve, and treat you as much more than just a student.

Technology is at the heart of our philosophy. The twenty-first century is characterised by change. We believe that this is something to be inspired by rather than resisted. The world is constantly evolving, and so are we. We will help you to develop the skills and insights that will always be relevant, no matter how things change further down the road. In a world where nothing stays the same, we all need to Learn to Succeed. That is what we do. Be bold and join us.

About Us

The Technological University of Choice

The International University of East Africa (IUEA) is a fully CHARTERED private University in Uganda by the Uganda National Council for Higher Education (NCHE). Our multicultural environment consists of a student body and staff who bring on various experiences and dynamism to the institution.

Our Vision

To be the Technological University of Choice in Africa.

Our Mission

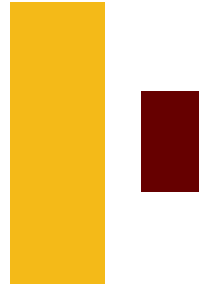

To Provide an Excellent Education that includes practical experience and skills.

Motto

Learning to Succeed.

01

Welcome

Prof. Emeka Akaezuwa

Vice Chancellor

Dear Esteemed Graduates and Distinguished Guests,

It is my honor as Vice Chancellor to welcome you to the 10th Graduation Ceremony under the inspiring theme, “Beyond Borders.” Today, we celebrate not only academic achievement but also the limitless possibilities that lie ahead. Your journey has transcended boundaries, embodying resilience and innovation. As you step into the world, armed with knowledge, skills, and a global perspective, remember that your impact knows no borders. Congratulations on this significant milestone, and may your future endeavors be boundless, transformative, and marked by excellence. Embrace the challenges, seize opportunities, and let the spirit of this occasion propel you beyond borders.

Warm regards,

Prof. Emeka Akaezuwa
Vice Chancellor

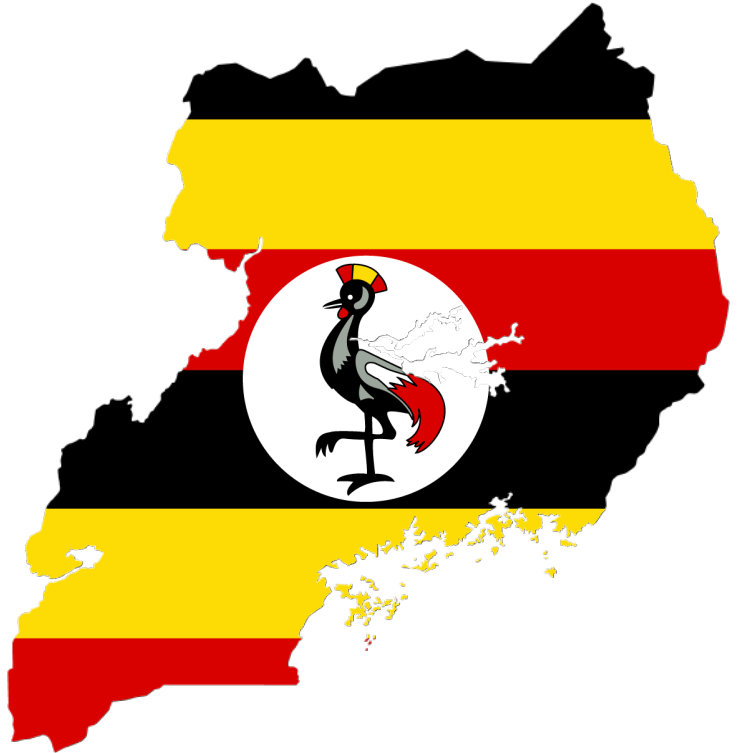

UGANDA NATIONAL ANTHEM

Oh Uganda! May God uphold thee,
We lay our future in thy hand.
United, free, for liberty
Together we'll always stand.

Oh Uganda! The land of freedom,
Our love and labor we give,
And with neighbors all,
At our country's call
In peace and friendship, we'll live.

Oh Uganda! The land that feeds us,
By sun and fertile soil grown.
For our own dear land,
We'll always stand,
The Pearl of Africa's Crown.

EAST AFRICAN ANTHEM

Verse 1

Ee Mungu twaomba ulinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu.

Chorus

Jumuiya Yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu.

Verse 2.

Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Natulinde Uhuru na Amani
Mila zetu na desturi zetu.

Verse 3

Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tujenge Jumuiya bora.

OPENING STATEMENT

BY VIRTUE OF THE AUTHORITY VESTED IN ME;
I HEREBY DECLARE THE 10TH CONGREGATION OF
GRADUATION OF
THE INTERNATIONAL UNIVERSITY OF EAST AFRICA
OFFICIALLY OPEN

Message From The Chancellor

Amb. (Dr.) Amina Mohamed
Chancellor of IUEA

His Lordship, Chief Justice Owiny-Dolo, Ambassadors present, Ministers present, University Council Chairman Amb. Sebunya Moses, Guest of Honor, Vice Chancellor Prof. Emeka Akaezuwa, Vice Chancellors of sister universities present, Distinguished Guests, Esteemed Graduates, Illustrious Faculty, Beloved Parents and Guardians, Ladies and Gentlemen.

Today, we gather to celebrate not only the culmination of your academic journey but also to honor the spirit of education and the pursuit of knowledge. As the Chancellor of the International University of East Africa, it is a privilege and an honor to stand before you on this momentous day.

The theme for this year's graduation, "Beyond Borders," is a powerful reminder that knowledge knows no barriers. Our institution, renowned for innovation and academic excellence, embodies this principle at its core.

During my tenure as Chancellor, I had the privilege of launching a book that delves into the depths of academia through my biography, reflecting our institution's ethos as a beacon of knowledge expressed in the paths I took my journey.

This year marks a historic milestone as I have the honor of being the first female Chancellor in Uganda. As a lawyer, I comprehend the transformative power of education. It shapes individuals and societies.

As the former Cabinet Secretary for Education and Foreign Affairs in Kenya, I witnessed firsthand the transformative impact of education. Knowledge breaks barriers and fosters global citizenship.

To all the graduates, you stand on the precipice of a future filled with possibilities. Armed with the knowledge you've acquired, experiences

you've lived, and guidance of your esteemed faculty, you're prepared to venture into a world that eagerly awaits your contributions. Today's world is more interconnected and interdependent than ever before. It requires individuals like you, equipped not only with knowledge but also with the ability to adapt and innovate.

As you step out of this institution, remember that the quest for knowledge doesn't end here. It's a lifelong journey. The education you've received is a solid foundation, a launchpad from which you can soar to great heights. Stay curious, keep learning, and remain open to new ideas and experiences.

Being the first female Chancellor of this esteemed institution and the first female vice chancellor in Uganda fills me with profound pride. It's a testament to the progress we've made in breaking down gender barriers and promoting equality in education and leadership. I stand here as a representative of all the young girls and women aspiring to make a difference in the world. I urge each one of you, irrespective of gender, to pursue your dreams with determination and resilience.

In my capacity as a lawyer, I understand the power of justice and its role in society. The legal profession is about upholding justice, being a voice for the voiceless, and ensuring a fair and equitable society. For those of you graduating in law, this is a noble path you've chosen. Be ethical and compassionate legal professionals, striving for justice and truth in all your endeavors.

This year, we've been granted a charter for the International University of East Africa, signed by the President of Uganda. This is a significant milestone, highlighting our commitment to academic excellence and the recognition of our contributions to the academic landscape.

This charter symbolizes our dedication to providing quality education and fostering a culture of research, innovation, and global collaboration. It lays the foundation for a future where we envision our university playing a pivotal role in shaping a borderless world, where knowledge transcends boundaries and where our graduates become global citizens, equipped to face the challenges of an interconnected world.

As you stand at the threshold of this new chapter in your lives, I encourage you to embrace this vision of a borderless world. Our world today is facing multifaceted challenges that require collective efforts, transcending geographical and disciplinary borders.

The skills you have honed and the knowledge you have gained during your time at IUEA have prepared you to be part of this global community. You have the capacity to contribute, to collaborate, and to lead on the world stage.

Our vision is one where you, our graduates, will bridge divides, foster understanding, and drive positive change. It is a vision where you will leverage your expertise and passion to create a world that is more equitable, sustainable, and just. Remember, you are not just recipients of knowledge; you are now bearers of the torch of enlightenment, and it's your responsibility to carry this light wherever you go.

In conclusion, I extend my heartfelt congratulations to each and every one of you. You have worked hard, persevered, and now stand as a testament to what education, determination, and resilience can achieve.

As you step into the world, armed with your degrees and the values instilled in you by this esteemed insti-

tution, know that you carry with you the hopes and dreams of many.

Go forth, our dear graduates, and make your mark in this world. Be the change-makers, the innovators, and the leaders we know you can be. Embrace the borderless world with open arms, for it is within this expansive realm that you will find your true potential.

Thank you.

Learning to Succeed

THE TECHNOLOGICAL UNIVERSITY OF CHOICE.

Message From The Vice Chancellor

Prof. Emeka Akaezuwa
Chancellor of IUEA

Esteemed Chancellor Dr. Amina Chawahir Mohamed, His Lordship, Chief Justice of Uganda and Chair IUEA Board of Trustees, Owiny-Dollo, Ambassadors present, Ministers present, University Council Chairman Amb. Sebuya Moses, Guest of Honor, Vice Chancellors of sister universities present, Distinguished Guests, Esteemed Graduates, Illustrious Faculty, Beloved Parents and Guardians, Ladies and Gentlemen. A warm welcome to this dynamic university's 10th graduation ceremony.

Today, we stand on the threshold of a new era. An era where the confluence of technology and education reshapes the trajectory of our lives.

As the Vice Chancellor of the International University of East Africa and a fervent advocate for technology and innovation, it is both an honor and a privilege to address you on this momentous day.

The theme for this year's graduation, "Beyond Borders," speaks to the core of our institution's ethos. In a world progressively driven by technology, the rigidity of borders is being broken and so should the rigidity of antiquated education. At IUEA, we acknowledge that true progress emerges from the courageous exploration of new frontiers, especially in the realm of knowledge, technology, and innovation.

As graduates of IUEA, you are not just beneficiaries of knowledge, but pioneers of a digital revolution. We live in an era where technological prowess is vital for success. IUEA has prepared you for this reality, empowering you to navigate the intricate world of technology with confidence and ingenuity.

In my journey as an entrepreneur, inventor, technologist, and educator, I have been witness to the transformative power of technology. It

has the potential to disrupt, elevate, and connect. The world eagerly awaits the innovative solutions that you, as graduates of IUEA, are aptly equipped to provide.

Our university has whole-heartedly embraced this age of technology and innovation. We've created an environment that fosters ideas, encourages creativity, and pushes boundaries. You have been exposed to cutting-edge technologies during your time at IUEA, preparing you to navigate a borderless world and make a tangible difference.

The year 2023 has been particularly momentous for our institution. Permit me to list just a few of the achievements of 2023: We witnessed the launch of our scholarship fund, a testament to our commitment to providing accessible education and creating opportunities for aspiring minds. We made it to our 10th graduation ceremony.

So far, we have graduated over five thousand students from over 54 countries. We installed our second Chancellor, Amb., Dr. Amina Chawahir Mohamed.

Dr. Amina Mohamed, our esteemed Chancellor, holds a unique place in our academic community. She was a Cabinet Secretary for Education in Kenya and as the first female Chancellor in Uganda, her appointment signifies our commitment to embracing the East African Community's principles of regional rotation of leadership. It's a testament to our vision of an inclusive and progressive academic landscape.

This year, we received a Charter; we were accredited for the Minimum Standards Open, Distance, eLearning program; we organized numerous international conferences on petroleum, Climate Change and Food security. Our Law Faculty produced IUEA's first international Journal and Africa's first journal that combines law, technology and innovation, the African Journal of Legal Issues in Technology and Innovation (AJLITI).

The faculty also started an innovative law program called Law Tech. Law Tech integrates law and technology. We produced innovations such as Legal Finder and eSusFarm. eSusFarm won the 2023 African Agri-Fintech competition in Tanzania in October 2023. We signed MOUs related to the burning issues of the day, climate change, food security and carbon credits. Our MOU with Wuhan University in China on Remote Sensing speaks to the issues of climate change and carbon credit as does our Partnership with Tooro Kingdom.

As part of our partnership with the Tooro Kingdom, we plan to launch eSusFarm in 2024 and establish a research center where we can jointly develop technologies; we plan to support the tourism sector in Tooro Kingdom by setting up a Tourism school under our esteemed Faculty of Business and Management. The school will be linked to our Bachelor's program in Tourism and Hospitality Management, equipping students with the necessary skills and knowledge to excel in this industry.

We will also conduct research with the Tooro Kingdom on various environmental projects that will contribute to the preservation and conservation of the region's natural resources. Likewise, we are also partnering with Across the Nile Resort in Jinja to establish a practical center for hospitality and tourism.

The accreditation of our ODeL marks a significant stride towards providing accessible and flexible learning options for the digital age and it takes our vision and mission beyond borders. In our pursuit of global collaboration and academic excellence, we have

forged strong partnerships. In a few days, a delegation from IUEA will be heading to Dubai to participate in COP28 international conference on climate change. There, we will discuss climate financing, greenhouse gases and forge more partnerships.

These partnerships are a testament to our commitment to fostering a culture of collaboration and knowledge sharing. To end the list, let me inform you that IUEA is the first university, probably in Africa, to develop a Climate-Smart Agriculture curriculum! We are proud of this!

As you embark on the next chapter of your lives, remember that knowledge is the compass that will guide you. Let your innovation and technological prowess be the winds that propel you. Embrace this borderless world with open arms, for within it lies a vast expanse of opportunity and potential.

In conclusion, and on behalf of the university, I thank IUEA promoters, the Board of Trustees, the University Council and staff for their unflinching support. I also thank the parents, guardians, and supporters who made this day possible for you. And I extend my heartfelt congratulations to each and every graduate. Your journey has been one of resilience, dedication, and a thirst for knowledge.

Carry the torch of innovation and illuminate the world with your expertise and creativity. Now go, see, and conquer the world. You were made at IUEA.

Thank you.

Message From Chairman BOT

Chief Justice Alfonse Chigamoy -
Dollo
Chairperson

Esteemed Graduates, Illustrious Faculty, Distinguished Guests, Honored University Council Chairman Amb. Sebuya Moses, Chancellor Dr. Amina, Vice Chancellor Prof. Emeka Akaezuwa, Beloved Attendees, and the Pioneers of Justice,

Today, we gather to celebrate not only an academic achievement but also a tribute to the very essence of justice and the relentless pursuit of knowledge. I stand before you as the Chairman of the Board of Trustees, bearing witness to the triumph of legal scholarship and the indefatigable spirit of the Class of 2023.

The theme for this year's graduation, "Beyond Borders," resonates profoundly with the legal graduates among us.

The legal profession extends beyond the confines of geography. The principles of justice, the concepts of law, and the ideals of equity transcend the boundaries of nations and cultures.

To our law graduates, I offer you a special piece of advice. As you step into the legal realm, remember that the law is a powerful tool to uphold justice and protect the rights of individuals. It is a beacon that guides societies towards fairness and equity. Let the light of truth illuminate your path, and let your passion for law be the compass that leads you to seek justice 'Beyond Borders.'

Furthermore, I am delighted to share that the International University of East Africa has taken a pioneering step in the realm of legal education. The institution has introduced LawTech, an innovative initiative that integrates technology into legal practices. In this rapidly evolving digital age, the fusion of law and technology is not just an option but a necessity. The ability to adapt to these changes will define the success of legal practitioners in the years to come.

In conjunction with LawTech, the university has also launched the African Journal of Legal Issues in Technology and Innovation. This initiative signifies our commitment to advancing legal research and fostering innovation within the legal domain. It is a platform that encourages critical discourse on the intersection of law and technology, providing invaluable insights that can shape the future of legal practices. The legal community, be it in Uganda, across the African continent, or around the globe, stands united by the ideals of fairness, equality, and the pursuit of justice. These ideals, etched into the very fabric of legal education, have shaped the leaders and scholars in our midst today.

As we celebrate your achievements, it is imperative to reflect on the journey that brought you here. The path of legal education is demanding, requiring not only an adept understanding of the law but also a compassionate heart and an ethical conscience. It challenges you to delve into the depths of jurisprudence, to grapple with the complexities of the legal system, and to emerge as advocates of truth and fairness.

In a world that is becoming increasingly interconnected, the importance of law as a unifying force cannot be overstated. Laws and justice systems are essential threads that bind the global community. They bridge cultures, they harmonize diverse perspectives, and they lay the foundation for peaceful coexistence. As legal scholars, you now bear the responsibility of contributing to the evolution of law, ensuring that it remains just and relevant in an ever-changing world.

And to all the graduates here today, regardless of your field of study, remember that education is a lifelong commitment. The pursuit of knowledge does not end here; it is a journey that continues beyond the walls of this institution. Your thirst for knowledge should be insatiable, and your determination to make a difference should be relentless.

The essence of education lies not merely in the accumulation of facts and theories but in the application of wisdom gained through learning. It is about understanding the world around us and using our knowledge to contribute positively to society.

As you graduate from this esteemed institution, recognize the immense responsibilities that come with your knowledge and expertise. The world needs compassionate and informed individuals like you, who can transcend boundaries, collaborate, and work towards a more just and equitable society.

In your journey 'Beyond Borders,' let the ideals of law, justice, and equity be your guiding stars. Let the legal education you have received instill in you a sense of duty towards humanity. For the law is not just a profession; it is a vocation, a calling to uphold what is right and just.

Congratulations, Class of 2023! Your journey has just begun, and I have no doubt you will make a profound impact wherever life takes you.

Thank you.

Message From The Chairperson UC

Amb. Moses Kiwe Sebunya
Chairperson

Esteemed Graduates, Illustrious Faculty, Distinguished Guests, Vice Chancellor Prof. Emeka Akaezuwa, Honored Chief Justice Owinyi Dolo, Beloved Attendees, and the Vanguard of Knowledge,

Today, we gather in celebration of your remarkable achievements and the limitless potential that lies ahead. As the Chairman of the University Council, I am deeply honored to address you on this auspicious occasion.

The theme for this year's graduation, "Beyond Borders," resonates profoundly with the essence of education. It encapsulates the very spirit of knowledge, which knows no boundaries and is not confined by geographical limitations. Our esteemed institution, known for its innovation and unwavering dedication to academic excellence, epitomizes this principle.

During my tenure as Chairman of the University Council, I have had the privilege of witnessing the extraordinary growth and transformation of our institution. The University Council, in collaboration with the faculty and students, has tirelessly worked to elevate our academic standards and broaden our horizons.

This year marks a significant milestone for our university. We were granted a charter, a recognition of our unwavering commitment to academic excellence and dedication to providing quality education. This charter symbolizes our vision for the future, where we see our university playing a pivotal role in shaping a world without boundaries, a world where knowledge transcends all barriers.

Furthermore, having a female Chancellor, Ambassador Amina Chawahir Mohamed, is a testament to our university's commitment to embrace diversity and unity within the East African community. It highlights our dedication to implementing the regional rotation of leaders, showcasing that leadership knows no gender, nationality, or boundaries. Ambassador Amina Chawahir Mohamed, a distinguished Kenyan

leader, embodies the spirit of collaboration and unity that characterizes our region.

As you stand on the threshold of a new chapter in your life, remember that the quest for knowledge is an unending journey. The education you've received here is a strong foundation, a launchpad from which you can achieve great heights. Stay curious, keep learning, and remain open to new ideas and experiences.

Our world today is more interconnected and interdependent than ever before. It requires individuals like you, equipped not only with knowledge but also with the ability to adapt and innovate. Embrace the challenges and opportunities of this interconnected world, for you are prepared to make a difference. In conclusion, I extend my heartfelt congratulations to every one of you. Your hard work, perseverance, and dedication have brought you to this significant juncture. As you step into the world, remember that you carry with you the hopes and dreams of many.

Go forth, our dear graduates, and leave an indelible mark on the world. Be the change-makers, the innovators, and the leaders we know you can be.

Embrace the boundless world that awaits you, for it is within this expansive realm that you will find your true potential.

Thank you.

Message From The Guild President

H.E HAILE YAK GATLUAK
Guild President

The Chancellor Dr Amina Mohamad, Diplomatic missions present, the Board of Trustees, members of the university Council, Esteemed Guests, Graduands and Parents present. I salute you in the names of IUEA. It's indeed my singular honour and privilege to and take a reflection on the the following; Graduation theme, "Beyond Borders". Dear graduands, your time in this university has been more than an academic pursuit, but rather one of a transformative experience that has transcended borders.

We come from different backgrounds, cultures, but the vision of IUEA has enabled us form one big family where we shared dreams, grew together and formed lifelong connections that will not only span the continent and the Globe but also enhance harmony in diversity.

As we move into the world beyond this university, let's realize that the challenges we face know no borders, whether climate change, social inequality or global conflicts hence they require collaboration and understanding that extends beyond national boundaries. Let's be the generation that breaks down barriers, that builds bridges of empathy and compassion. lets embrace diversity and celebrate our differences for it is through this unity that we can create real change.

Education and its relevance to the society. Education is not just limited to acquiring knowledge but rather a transformative force that unlocks doors of opportunities, breaks chains of ignorance and empowers us to create a better future.

With education being the primary agent of change that we desire in the rapidly changing world, you all ought to realize that we can only achieve more of this vision through embracing the practical applications of the skills attained. Most importantly, Education is not just about personal growth but about collective progress.

So, as we embark on our individual paths, let's carry with us the spirit of the university, let's be ambassadors of understanding and peace, advocates for justice and catalysts for a positive change and hence we shall be able to make a difference beyond borders.

Congratulations, class of 2023! May we inspire and be inspired by the world around us.

H.E HAILE YAK GATLUAK.
Guild President IUEA.

Message From The RG Students

MUBEMBE NATHAN
RG Students

Esteemed Graduates, Illustrious Faculty, Distinguished Guests, Honored University Council Chairman Amb. Sebuya Moses, Chancellor Dr. Amina, Vice Chancellor Prof. Emeka Akaezeuwa, Beloved Attendees, and the Pioneers of Justice,

The day is finally here, Albert Einstein was right when he stated that “Persistence is the most powerful force on earth, it can move mountains.”

Mountains have been moved throughout the journey of persistence, that is why we are all here. We all started this journey a few years ago, for some it has been 5 years, others 4 years , others 3 years and 2 years for diplomas’ graduands.

Today we have one thing in common: we are all shining with these beautiful gowns in the color of the best technological university of choice in Africa, our Pride. Ready to go beyond borders.

This day couldn’t be possible if our dear parents and sponsors didn’t believe in us at first. So allow me to request all the parents in the building to stand up and receive a round of applause.

(I’m honored to see my mom, my heroine, in the building. She flew all the way from Kinshasa just to come and give me a hug on this occasion).

We can see the happiness on the faces of all parents around, dear parents we love you and value your efforts towards our success. These few words are just a way of extending our heartiest gratitude to your limitless sacrifices.

To our beloved lecturers and the estimated management of the technological university of choice. We are used to seeing you in classes,

in staff rooms, in the corridor, in the garden etc always ready to have a chat because you were so concerned about our journey of learning to succeed at IUEA. We cannot thank you enough.

We came here as raw materials, now we are the final product, ready to face and conquer the market place, Beyond borders.

To my fellow graduates the theme of today is just a reminder of what we have been trained for during our journey here at IUEA which is a multicultural environment. I’m not here to give a long speech, because I know it could be boring at some point. We are all ready to party and celebrate this great achievement today. Let’s keep the bond that we have created and always connect through the IUEA alumni network that we are now part of.

Congratulations to us, we made it, class of 2023.

Thank you all.

IUEA INNOVATIONS

Introduction: At the heart of any academic institution's mission lies the cultivation of brilliant minds capable of addressing real-world problems to benefit humanity. The role of innovation in education is undeniable, serving as a metric by which an institution's effectiveness can be gauged. The International University of East Africa (IUEA), a distinguished chartered university, stands as a beacon of excellence in this regard, embracing the innovation process to advance technology and usher in a brighter future.

Pushing Technological Boundaries at IUEA:

IUEA's innovation process has taken significant strides in robotics and machine learning, contributing to the advancement of a more efficient technological society. This process nurtures the creativity of young minds, resulting in remarkable technological marvels such as:

- Smart Home Ever (SHE): A home monitoring and management system.
- Wi-Fi-Enabled LED Light: An innovative lighting solution.
- Data Transmission via Light: A cutting-edge data transmission device.
- Rescat: A real-time 3D tracking system.

Advancing Innovation in Agriculture: IUEA's innovation process empowers young technocrats to drive progress in Uganda's largest sector, Agriculture. They are laying the foundation for Uganda to become Africa's agricultural hub through innovations such as:

- Mechanized Farm Rover: Enhancing agricultural efficiency.
- Solar-Powered Soil Tester: Supporting sustainable farming practices.
- Electric Tractor: Promoting Environmentally friendly farming.

Contributing to Environmental Protection:

IUEA's innovation process is at the forefront of environmentally friendly inventions, including:

- Recyclable Toys: Promoting sustainable play.
- Obstacle Avoidance Rover: Aiding in recycling efforts.
- Plastic Recycling Robot: Tackling complex recycling challenges.

Revolutionizing Renewable Energy:

Innovations in the field of renewable energy include:

- Green Stove: A sustainable cooking solution.
- Solar-Powered Mosquito Kite: Innovative pest control.
- Electric Train Powered by Down Energy: Efficient transportation.
- Home Hydroelectric Generator: Harnessing clean energy.
- Self-Charging Electric Bicycles: Sustainable transportation.
- Bamboo Electric Bicycles: Environmentally friendly mobility.

Safeguarding Human Life

IUEA's innovations extend to human life protection with inventions like:

- Security Guard Alert Device: Ensuring vigilance on the job.
- Car Accident Detection System: Assisting emergency responders.
- Live Wire Detection Device: Preventing electrocution risks.
- Smart Ventilation System: Combating COVID-19 transmission.
- Intelligent Information Management System: Enhancing pandemic management.
- COVID-19 Testing System: Supporting testing efforts.

The new ELECTRIC TRACTOR

INNOVATION, NEWSPAPER

ELECTRIC TRACTOR OX-4

What is Regenerators?

Regenerators is a consortium of eight people, managed by an experienced team of business executives, engineers, designers, development specialists, and sustainability experts who have previously worked in start-ups, non-governmental organizations, government bodies, universities, and multinational corporations. The regenerators intend to start with one tractor and then, once they are done with tests, they will determine how many to roll out in the village OX-4 TRACTORS. The tractor has two unique aspects. Unlike other tractors which are powered by diesel or gasoline engines, the OX-4 runs by electric hub motors, which are powered by four rechargeable batteries.

IUEA in Partnership with Global Regenerators Made the First Electric Tractor in Africa

The International University of East Africa has partnered with Regenerators, who have manufactured the first tractor ever made in Africa from scratch. The 25-horsepower, four-wheel tractor called OX-4, was designed by Oggun, a US-based company, which provided the blueprint.

IUEA, the Technological University of Choice, stands as a beacon of cutting-edge education. Renowned for its forward-thinking approach, it seamlessly integrates technology into every facet of learning. With a commitment to innovation, IUEA empowers students to thrive in a rapidly evolving global landscape. As the technological university of choice, it cultivates a dynamic environment where students shape the future through knowledge and expertise.

Message From The Dean

Mr. Emmanuel Sebizzo Ssemmanda
Dean, Faculty of Law
(Ph.D Cand., Leiden).

Dear graduates,

I celebrate with you this momentous occasion with immense pleasure and pride. Today we stand at the threshold of a new beginning, a moment where we transcend the confines of our individual borders. As we celebrate this remarkable milestone, let us reflect on the significance of going beyond borders, not just in the geographical sense but in every aspect of our lives.

For me, 'beyond borders' means a world teeming with endless possibilities, awaiting to be explored by our curiosity and courage. It beckons us to shatter the constraints of our own limitations and embrace the unknown with unwavering determination. It calls upon us to bridge the gap that divides us, to build connections that transcend cultural, social and ideological barriers. Your law degree is a fundamental achievement and certifies that you qualify to be counted among the change-makers in society. Use it to go beyond borders.

As you step into the vast expanse of your futures, remember that the most meaningful journeys often require us to venture beyond our comfort zones. You have overcome years of immense study with long nights and days filled with statutes, case law and other juristic material. You are finally a lawyer now, and that is no small achievement. Use your new qualification to impact yourself, your community, your nation and the globe. Go beyond borders.

In a world interconnected as never before, our differences become the threads that weave the

tapestry of our collective future. Let us commit ourselves to fostering mutual respect and collaboration, laying the foundations for a world that thrives on unity and cooperation. The world needs this today more than ever, and as you go beyond borders we must carry these ethos with us.

Each of you has the power to shape the world where boundaries are but a faint memory, and where unity and collaboration pave the way for a brighter tomorrow. Let your

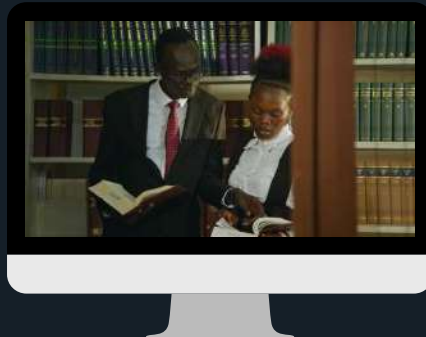

accomplishments reflect not only on your individual success but also your collective commitment to a community of nation states and individuals that uphold the rule of law. Congratulations as you embark on your next chapter. May you continue to push the boundaries of what is possible and inspire others to do the same, beyond borders.

Message From The Dean

Dr. Lakshmi Bhabuu
Dean, Faculty of Science and Technology

On this Special Day, it is with great pleasure that I join the graduates, parents, guardians, the fraternity of IUEA, and all well-wishers as we celebrate the 10th Graduation Ceremony of this Great Technological University.

The Class of 2023 – We are so thrilled to celebrate you and all your accomplishments today– you have worked incredibly hard to reach this milestone, and your determination and dedication have paid off,

I hope you feel honoured by what you have accomplished during your journey at IUEA and excited for what lies ahead and to accept the “diverse” and embrace the unknown.

With Vision, Mission, and Motto in mind,

IUEA is clear and beyond: As a technological university of choice, the university on its march to relevance, vibrancy, and sustainability has put in various interventions. We made a firm decision and invested more resources in technology to support learning and established partnerships and collaboration with strategic partners and that have remained our priorities. It is about reflection on the technological progress of shaping futures in an increasingly technology-dependent world. We shall accord everybody the opportunity to grow and thrive at the university without discrimination. We shall continue to promote diversity.

The Faculty of Science and Technology at IUEA offers an excellent education and a combination of technological and professional instruction and it provides the ability to be lifelong learners and critical thinkers who can make a tremendous difference in the world and has prepared all our students for success for the sustainable and digital future.

The Faculty boasts a team of highly professional, scholastic, and internationalized teaching staff with rich teaching experience, sharing a sense of professional dedication in caring and nurturing our

students. These experiences were made possible by the remarkable faculty and staff we have at IUEA. To meet the needs of both our students and future employers, the members of the faculty are constantly thinking about not only what they teach but also how they teach and how the way they shape students can add value.

In conclusion, I believe that we have arrived at a time on our planet where we are designing our future with more power at our disposal than at any time in our history. To all IUEA Graduates-You have acquired an impressive education and invaluable experiences. Explore your potential to the extremes and come out with flying colors.

I truly hope that as you start this next chapter, stay happy keep learning, and are never afraid to take risks. Any of life’s milestones are also a time of reflection.

May success and a smile always be yours

Message From The Dean

Prof. José Manuel Pagés Madrigal
Dean, Faculty of Engineering

Life, our existence in this world, is full of borders, and limits. Historically, some men decided to get their own benefits or other perverse intentions, through designing frontiers. These frontiers separated communities, even. These lines were the catalysts for so many international conflicts. They were continuous invitations to break schemes, venture into forbidden territories, and explore the unknown.

A new generation of graduates stands poised to shatter these molds, to boldly cross these forbidden thresholds in pursuit of a fundamental question: What lies beyond those lines? These borders, and the uncharted territories they guard, become not obstacles but inspiration, providing us with opportunities to showcase our abilities and push our limits. In this sense, borders are to be embraced and welcomed.

To the esteemed graduate class of 2023, I extend my warmest welcome to this group of individuals who share a burning desire, boundless curiosity, and lofty ambitions to transcend the boundaries that others have set. My congratulations are not merely a token of achievement but a poignant reminder that we must not halt our journey. Life is a ceaseless endeavor, an ongoing battle for a brighter tomorrow.

Life does not stop at all, let us break together through these borders, unequivocally demonstrating one of the innate characteristics of youth: the capacity to disrupt norms, persist with unwavering energy, and usher in this new chapter of existence that commences within each of you after this graduation ceremony, always extending beyond the borders.

Congratulations Class of 2023.

Message From The Dean

Dr. Venkatesh Andavar
Dean, Faculty of Business & Management

“Efforts will bring benefits without fail, so follow your passion and invest your efforts”

The students from our university had traveled a tough road to reach your success and getting graduated, so in first place let me say my great Congratulations to you all.

I am honored and in immense pleasure to see you here in this achievement of a milestone in life. Now this academic career will be going to guide you in all your life career. Please do bring honor to our university by advancing in your personal and professional life. Now you are the true responsible leaders trained in IUEA for shaping the world.

On behalf of the University family, I extend sincere congratulations and best of luck to the graduating students of 2023. You have been exceptional representatives of our University. I have no doubt that you will continue to serve as worthy ambassadors for the college by building upon our reputation for excellence.

I do urge you to always remember why you chose your respective field and the sacrifices that you endured in order to make it happen: to serve our communities and improve the quality of life and health of its members with compassion, honesty, and integrity.

I would also like to give special thanks to the parents, spouses, children, and friends of our graduates for their patience, understanding, sacrifices, and support – both moral and financial – during these challenging, but rewarding, years of study.

In the coming years, please do remember your former lecturers, the university, and the good time you spent here. I encourage you to not only give back to the college by supporting

college activities, programs, and scholarships, but also by keeping us updated on the many achievements you will experience in your careers and personal lives. We will always take great pride in your achievements. Congratulations again to the graduates of all our graduate programs. IUEA is very proud of you.
